STANDALONE **ANDROID** MEDIA PLAYER

Plug and Play · 24/7 Usage · Free Scheduling Software · Android Media Player · Eco Friendly Power Timer · Audio/Visual Ports
Plug and Play

These HD Android media players can be easily updated using a USB stick. Load your pictures and videos onto a USB stick and insert the it into the media player, this copies the files to its internal memory. Once you remove the USB stick your pictures and videos will play in a continuous loop.

24/7 Commercial Use

Commercially graded high quality components are used in the design of the media player to ensure that it can be in constant use 24/7. Unlike domestic media players, or DVD players, this unit is purpose built to run constantly and is extremely robust. You can even use this media player to run touch screen apps.

Free Scheduling Software

To get the most out of the player, you can use our free scheduling software, allowing you to display different content at certain times of the day. You can also add scrolling text and set image duration and transition effects using this software.

Android Media Player

Thanks to their Android OS, these players are more easily updateable and faster than ever before. The Android PC board makes it easy to upgrade your player to be networked and also allows you to run 3rd party Digital Signage software.

Eco Friendly Power Timer

This allows for reduced power usage by automatically powering off in hours that the player is not required. You can set daily, or weekly, On/Off times for your players.

Audio/Visual Outputs

Send the audio visual signal to practically any screen by connecting the media player to the screen using either the HDMI or VGA and 3.5mm Audio Jack outputs.

Specification

AV Outputs	Video	HDMI, VGA	
	Audio	Stereo Analog Audio Socket (3.5mm)	
Power	Power Consumption (W)	<5	
	Input Voltage	AC110~240V (50Hz~60Hz)	
Mechanical	Unit Size (WxHxD mm)	156x104x34	
Feature	Internal Media Player	Media Formats	Video (MPG, AVI, MP4, RM, RMVB, TS), Audio (MP3, WMA), Image (JPG, GIF, BMP, PNG)
		Media Resolution	1920x1080/1080x1920
		Internal Memory	6GB
		CPU	Quad-Core Cortex-A9 @1.6GHz
		GPU	Mali-400 MP4 @600MHz
		RAM	1GB DDR3
		ROM	8GB NAND
		USB	USB2.0 HOST (x2)
		LAN	10/100M Ethernet (Only when upgraded to network)
		Wi-Fi	802.11b/g/n (Only when upgraded to network)
		OS	Android 4.2.2
		Graphic Engine	OpenGL ES 1.1/2.0, OpenVG 1.1
	Special	Images, Videos, Audio, Scrolling Text Message, On/Off Timer, On Screen Clock, Media Rotation	
Accessories	Included	HDMI Cable, Scheduling Software, Remote Control, User Manual	
	Optional	Network Upgrade
